Hey! I want to travel solo to Thailand for 2 weeks in July. I'm 30 and I've never travelled alone before. I have no idea where to stay. Hotels feel too expensive and too lonely. What do solo travellers usually do?

My daughter is 21 and she wants to spend 3 weeks alone in Vietnam and Cambodia. She has never travelled without family before. I'm very worried — especially about her money and safety at night. Is it really okay? What should she do to stay safe?
