Unit 5-6 Written Assessment

A. READ THE PASSAGE AND THEN ANSWER THE QUESTIONS BELOW.

Yosemite National Park is a beautiful place located in California, USA. It's known for its stunning views of tall granite cliffs, waterfalls, and lush forests. The park is also home to many different types of animals, such as deer, bears, and birds.

Yosemite was first protected as a park in 1864 by President Abraham Lincoln, making it one of the oldest national parks in the country. It covers an area of over 1,200 square miles and is visited by millions of people each year.

One of the most famous features of Yosemite is El Capitan. It's a giant granite rock that stands over 3,000 feet tall and is a popular spot for rock climbers. Another famous feature is Half Dome, a granite dome that rises more than 4,700 feet above the valley floor.

The park also has many beautiful waterfalls, including Yosemite Falls, which is the highest waterfall in North America. It's a great place to hike and explore nature. There are many trails for visitors to take, from easy, flat trails to more challenging hikes that lead to the top of the cliffs and waterfalls.

In addition to the natural beauty, Yosemite also has a rich history. The park is home to many Native American tribes who have lived in the area for thousands of years. Visitors can learn about their culture and history at the park's museums and cultural centers.

Yosemite is also home to many different types of animals, such as deer, bears, and birds. Visitors can see these animals in their natural habitats, but it's important to remember to keep a safe distance and not to feed them.

Yosemite National Park is a special place that offers something for everyone. Whether you love hiking, rock climbing, or just enjoying nature, there's something for you to discover in this beautiful park. It's a place where one can go to escape the noise and busyness of everyday life and reconnect with nature. So, next time you're looking for an adventure, consider visiting Yosemite National Park

1. Where is Yosemite National Park located?

_____

_____

LIVEWORKSHEETS
