• Rat • Cat • Cow

Which of the following statements is **not** correct about the animals?

- A Animals in Group I lay eggs to produce their offspring.
 - B Animals in Group II give birth to live young.
 - C All the animals have the same life cycles.
 - D Not all the young animals look like their parents.

3. The diagrams show the different stages in the life cycle of a chicken.

Which is the correct sequence?

- A $X \rightarrow Y \rightarrow W \rightarrow Z$
- B $X \rightarrow Z \rightarrow W \rightarrow Y$
- C $Z \rightarrow Y \rightarrow W \rightarrow X$
- D $Z \rightarrow W \rightarrow Y \rightarrow X$

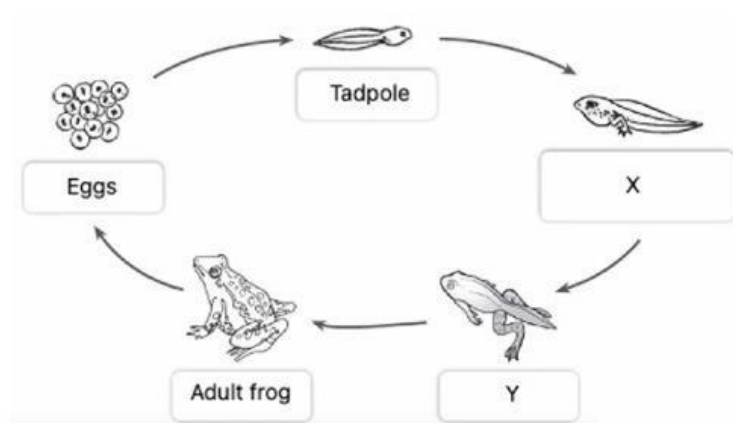

4. The following shows the life cycle of a butterfly.

Egg $\rightarrow$ X $\rightarrow$ Pupa $\rightarrow$ Butterfly

What does X represent?

5. The diagram shows a life cycle of a frog.

What are stages X and Y?

	X	Y
A	Tadpole with hind legs	Froglet
B	Tadpole with hind legs	Larva
C	Froglet	Tadpole with hind legs
D	Larva	Froglet

6. The following information is about an animal.

I lay many eggs to produce my own offspring.

I go through four stages in my life cycle.

What am I?

What is the animal above?

- A Rabbit
- B Cow
- C Butterfly
- D Eagle

7. Which of the following animals gives birth to live young?

- A Goldfish
- B Dog
- C Bird
- D Tortoise

8. Which of the following young animals do **not** look like their parents?

- A Cat
- B Frog
- C Horse
- D Sheep

- A Budding
 - B Giving birth
 - C Laying eggs
 - D Both laying eggs and giving birth
11. Which is the correct sequence for the stages of the life cycle of a human?
- A Infancy → Adolescence → Childhood → Adulthood → Old age
 - B Infancy → Childhood → Adulthood → Adolescence → Old age
 - C Infancy → Childhood → Adolescence → Adulthood → Old age
 - D Childhood → Infancy → Adolescence → Adulthood → Old age
12. Aroon experienced the following.

- He cannot respond quickly.
- He cannot see or listen clearly.
- He walks slowly with a walking stick.

Based on the information above, which stage is Aroon at now?

- A Childhood
- B Adulthood
- C Adolescence
- D Old age

13. By which stage of the human life cycle has our body fully developed?
- A Childhood
 - B Infancy
 - C Adulthood
 - D Adolescence
14. What happens to the body during adolescence?
- A It gets weaker.
 - B It develops and changes.
 - C It stops growing.
 - D It starts to change skin color.
15. At which stage of the human life cycle do you learn to crawl, move around and say some words?
- A Childhood
 - B Infancy
 - C Adulthood
 - D Adolescence
