Where is it made?

Look around you. What things can you see that are made in different countries?

Maybe your computer was made in Japan, your phone was made in Korea and your notebook was made in China. Life would be very boring without these things!

Technology

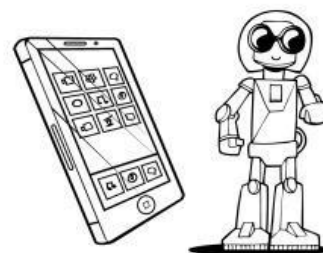

Many technological items are produced in Japan, including mobile phones, computers and laptops, but more smartphones are produced in South Korea. Technology in Japan is more advanced in robotics,

and many human or animal-like robots are made there. They have even just produced a new robot astronaut!

Food

Many different foods are produced around the world and sold to different countries, so we can taste the best of everything! People say that the best coffee is grown in Brazil and the best chocolate is made in Switzerland. The most rice is grown in Asian countries like China and Japan. Olives are grown all over the Mediterranean. So, in your local supermarket you can buy foods from all over the world.
