Camp Explore

April 9th

Today was fun! I was at the coast with my friends. There was a boat tour to see the cliffs and caves. At first, there were steep cliffs and big rocks. The ocean was beautiful, but we couldn't swim because the water was cold.

After a while, we could see a wide beach. Then we could see the famous cave! There wasn't a path to the cave, but we could go inside in the boat. Inside the cave there was a flat beach, and we could see the sky. There was a huge hole! That's why the cave is famous.

Later, there was another surprise. There were a lot of dolphins next to the boat! I have some great photos. In the evening, there was pizza for dinner. We were tired, but we were happy. It was a fun day.

👍
