Social media - connecting or disconnecting?

Every year, more and more teenagers spend hours scrolling through social media platforms daily, making online communication a central part of their routine.

Using these networks to stay connected has a lot of positive aspects. The ¹ _____ advantage is that social media, like many other digital tools, helps you keep in touch with friends. For ² _____, when you are physically apart, sharing photos can make you feel closer. ³ _____ benefit is the access to online support groups and educational resources that can help you learn new skills. In ⁴ _____, the sense of digital community and shared interests can be highly valuable in a teenager's everyday life.

On the ⁵ _____ hand, there are also some important disadvantages. ⁶ _____ social media helps people keep in contact, it ⁷ _____ also lead to feelings of isolation and low self-esteem. The pressure to present a perfect life online is quite high, and some virtual interactions, such as cyberbullying ⁸ _____ reading negative comments, can have serious emotional consequences. Because of these risks, you need to set clear screen time limits. Furthermore, these platforms are likely to be addictive ⁹ _____ they are designed to keep you online for as long as possible.

To sum up, social media platforms have ¹⁰_____ advantages and disadvantages. Whether they enrich your lifestyle or cause anxiety depends entirely on your self-control, your digital habits, and how much you allow them to affect your real-world relationships.
