INTERNET

The internet is a large network that connects computers and devices all over the world.

It helps people find information, learn new things, and stay in touch with others.

We can use the internet to read news, watch videos, send emails, play games, and even shop online.

People use the internet at home, school, and work. It helps students do research and complete assignments. It also helps businesses talk to customers and sell products.

Although the internet is very useful, it is important to use it safely and wisely.

We should not share personal information and should always ask a trusted adult for help if we see something that makes us feel uncomfortable.

The internet is a powerful tool that can make our lives easier and help us learn!
