A Sweet and Sour experience

By Rani Cato

Last Saturday, we went to Sweet and Sour restaurant in the city centre for the first time. The reviews on their website say that the food is delicious, so my family went to try it. We ordered our food by going online and clicking on icons of the food we wanted. It was fun! I had a kind of chicken stew with vegetables and fried rice. The stew wasn't spicy, but if you ask for more chillies, they'll give you some! The fried rice was made with carrots and beans.

My dad got sushi. I don't like raw fish, so I didn't want to try it. The only bad thing was that my mum's dumplings were burnt. They tasted OK, but they were black. We might go again, but I won't order dumplings!
