No	Definition / Description	Word from Text
1	A belief that something is true, even though it may not be proven.	
2	The state or quality of producing a significant amount of work or output.	
3	To keep or continue to have something; to hold on to.	
4	To plan, invent, or create a complex system or strategy.	
5	A change from one state or condition to another.	
6	Working for oneself rather than for an employer; independent business owner.	
7	To accept or admit that something is true or exists.	
8	Something proposed as a plan or an offer, especially in a business context.	
9	A system of payment where workers are paid based on the amount of work completed, not the time spent.	
10	Experienced by someone who is forced to act quickly or efficiently due to external demands.
