1. The desk in the picture is made of light wood and has a **drawer** / **desk mat** under the laptop. There is a **plant** / **candle** on the left and a **pen holder** / **notebook** on the right. The laptop is open, and you can see the **touchpad** / **charger** below the keyboard. There are also some **sticky notes** / **headphones** next to the pen holder. The room looks **cozy** / **bright** because of the lamp and natural light.

2. The headphones in the picture are **white** / **dark** and look very comfortable. They are next to a **cup of tea** / **laptop** on a wooden desk. There is a **candle** / **plant** burning and a soft **blanket** / **sticky notes** nearby. This place looks perfect for reading or listening to music in **silence** / **mess**. I **prefer** / **hide** this cozy atmosphere when it's cold outside.

3. There are many **plants** / **drawers** on the desk and on the windowsill. The **laptop** / **notebook** is in the middle and is placed on a **desk mat** / **pen holder**. You can see **sticky notes** / **charger** on the wall with some ideas written on them. The pen **holder** / **drawer** is full of pens, pencils and scissors. The room is **bright** / **dark** and feels productive but not too **messy** / **minimalist**.

4. The **drawer** / **desk** in the picture is open and full of useful things. There are **sticky notes** / **headphones**, paper clips, pens and a small **notebook** / **plant**. Everything is **tidy** / **messy** and easy to find. I like to **hide** / **prefer** my things in the drawer so the desk looks clean. This **minimalist** / **colourful** arrangement helps me stay organised.

5. It's evening and the room is **dark** / **bright**. There is a **laptop** / **candle** on the desk, but the main light comes from a lamp and fairy lights. The **plant** / **charger** on the shelf makes the room feel more alive. I'm working in **silence** / **mess** because it helps me concentrate. The atmosphere is **cozy** / **messy** and perfect for studying.
