A Visit to a National Park

For each question, write ONE word for each gap.

Last weekend, my family visited a national park to learn more about endangered animals.

The guide told us that many animals are losing **27** _____ homes because people are cutting down forests.

Some rescued animals are transferred **28** _____ safe areas before they are returned to the wild.

If people continue to protect forests, many endangered animals **29** _____ survive in the future.

We also learned **30** _____ important it is to protect wildlife and their habitats.

Many visitors came to the park **31** _____ learn more about nature and the animals living there.

I really enjoyed the visit and hope to visit it **32** _____ one day.
