Topic: Should Students Use AI for Homework?

- Alya** : What do you think about using AI like ChatGPT to help with homework?
- Raka** : In my opinion, it can be very helpful if students use it wisely.
- Alya** : Really? Why do you think so?
- Raka** : Because it can explain difficult topics and help students understand lessons faster.
- Alya** : I agree that it can help students learn. However, I believe students shouldn't copy the answers directly.
- Raka** : That's true. I think AI should be used only as a learning assistant, not as a replacement for studying.
