Television is very popular and even has some benefits for teens. It helps very young children learn the letters of the alphabet, and helps other kids learn about science, cultures, and world events. However, researchers show that watching too much TV is bad for children. For one thing, there is a link between watching more than four hours of TV a day and being overweight. Too much TV may also be the cause of lower grades. Experts do not agree on the solution to these problems.
