True / False / Not Given

Exercise 21

Answer Key p. 230

Does the following statement agree with the information given in Passage 21?

Write:

TRUE	*if the statement agrees with the information in the passage*
FALSE	*if the statement contradicts the information in the passage*
NOT GIVEN	*if there is no information on this in the passage*

Passage 21

Large areas of rainforests are being flattened to make space for developmental projects. On the contrary, rainforests should be protected because these regions are the habitats of thousands of flora and fauna which are still undiscovered. The destruction of rainforests also take away opportunities from people to discover new plant or animal species that could hold the answer to the treatment of incurable diseases. Rainforests also help in alleviating some of the negative effects of air and water pollution.

Question

Only a few of the plants and animals in rainforests are unknown.

Approach

STEP 1 Identify the keywords in the statement question.

STEP 2 Find out the ideas related to those keywords in the passage.

STEP 3 Decide whether the statement is TRUE (T), FALSE (F), or NOT GIVEN (NG).

Exercise 22

Answer Key p. 231

Does the following statement agree with the information given in Passage 22?

Write:

TRUE	*if the statement agrees with the information in the passage*
FALSE	*if the statement contradicts the information in the passage*
NOT GIVEN	*if there is no information on this in the passage*

Passage 22

The majority already recognizes the importance of having a high intelligence quotient (IQ) level. This predicts how well a person can perform on paper, meaning how likely an individual can get excellent scores in examinations or tests. Many people believe that it is also important to have a high emotional quotient (EQ) level. The EQ defines how well an individual is able to manage his abilities, emotions and relationships with others. Currently, many studies report that someone who has a high IQ level will not gain intellectual, emotional and social stability with a low EQ. Thus, IQ and EQ should be equally considered.

Question

An individual who has both high EQ and IQ levels will naturally succeed.

Approach

STEP 1 Identify the keywords in the statement question.

STEP 2 Find out the ideas related to those keywords in the passage.

STEP 3 Decide whether the statement is TRUE (T), FALSE (F), or NOT GIVEN (NG).
