Date: _____

GRADE 1 SCIENCE REVIEWER

Let's remember how science helps us and the ways young scientists work!

A. TRUE OR FALSE

Read each statement carefully.

Type the word **TRUE** if the statement is correct and **FALSE** if it is not.

1. Science helps us find answers to questions.

2. Science cannot help us in our everyday life.

3. Science helps doctors find ways to keep us healthy.

4. We cannot use science when cooking our food.

5. Science helps us understand the world around us.

B. MATCHING TYPE

Look at each picture and read the words.

Match it with the correct science process skill.

Draw a line to connect them.

1

I look closely at the plant.

2

I think what will happen next.

3

I group living and non-living things.

4

I know it rained because the ground is wet.

5

I measure the height of the plant.
