2 READ THE TEXT AND COMPLETE THE FILE CARD.

Read the text about a marine animal and complete the file card.

Sea turtles are marine animals that have been on Earth for more than 100 million years. They have a hard shell that protects their body. They live in warm oceans all around the world, but they come to beaches to lay their eggs. They eat sea grass, algae and sometimes jellyfish. Unfortunately, sea turtles are in danger of extinction because of pollution, plastic in the oceans, fishing nets and people taking their eggs.

FILE CARD

ANIMAL NAME: _____
APPEARANCE: _____
