

Do you remember the light in the flame?
It was a party of someone
Then you told me your name
For you were in a million
I wanna get lost with you
It's the only thing I wanna
Get out of my mind with you
Soon over
I walked you..... in the rain
Speaking the same language
You were running around in my brain
Then you sent me a
It said...

I know we did wrong
You told me that now
When I came to you
That you were with
If God messed up
With so stuff
Like living a loaded gun
But now that I'm out of my mind with you
We got that in the sun
