

Passage: Sarah's Shopping List

Sarah has RM50 to spend this week. First, she plans to buy lunch at school because she needs food every day. She also needs a new notebook because her old notebook is full. Sarah then sees a bubble tea shop and wants to buy a drink. She also sees a new video game that she likes, but she knows that she can live without it. Later, Sarah notices that her school shoes are damaged, so she decides to save some money to buy a new pair. She also wants to buy a trendy phone case, but it is not necessary.
