Read the following passage and mark the letter A, B, C, or D on your answer sheet to choose the word or phrase that best fits each of the numbered blanks

Shopping lists, super-market hopping and an increased sensitivity to shelf prices are among the signs that Greek consumers in these times of financial crisis are changing their habits when it comes to how they shop, what they spend and what they buy. These are the most recent findings of an annual research project carried out by the Athens University of Economics and Business on a (25) _____ sample of 1,928 households.

One of the most significant changes in this year's report is that 93.3 percent of respondents said that they have already made up their (26) _____ about what they will buy in advance of going shopping. Random purchases are becoming rarer: in the past, unable to resist the temptation of the colourful shelf displays, shoppers would happily buy things from the supermarket they had not intended to get when they set out. But at a time when money is short, people tend to avoid buying anything but the bare essentials. (27) _____, there is much less waste than in the past when people felt more carefree.

(28) _____ important finding is that only 60 percent of those (29) _____ have made mental or written shopping lists specifically intend to buy particular well-known brand names when they get to the supermarket. Cheaper, less well-known brands or local supermarket products, are becoming more popular.
