C-5

Name: _____

Date: _____

Read the passage and answer the question's below:-

The Magic Globe

My name is Ayaan. Last week my teacher brought a big globe to our class.

A globe is a round model of our Earth. It shows all the continents, oceans, mountains and countries.

On the globe, I saw big blue areas. My teacher said, "These are oceans." The green and brown parts are land. I

learned that our Earth has 7 continents and 5 oceans. My country Pakistan is in Asia.

The globe can also spin! My teacher told us that the Earth spins too, and that is why we have day and night.

I think the globe is magical. It helps us travel around the world while sitting in our classroom.

Questions:-

1. Find two words from the passage that means "round"

2. What are the blue parts on a globe called?

3. Fill in the blank:-

The earth _____ round (is / are)

4. Name 1 continent and 1 ocean you saw on the globe.

5. Why are globes important? Write 2 lines.
