CAVITE SCIENCE INTEGRATED SCHOOL
Regional Science High School
Garita 1-B Maragondon, Cavite

ENHANCED SCIENCE 7
Term 1 | Week 11
Plant and Animal Cells
Individual Activity

Name: _____ Grade & Section: _____

Directions: Match the parts of the cell with their associated objects and functions by dragging the pictures.

Part	Function	Associated object	Function	Associated object
			Releases energy from food	
			Builds proteins for build up and repair of body tissues	
			Captures sunlight for photosynthesis	
			Controls what enters and leaves the cell	
			Stores food, water, and wastes	
			Holds organelles and is where many reactions happen	
			Controls cell activities	
			Where digestion of nutrients takes place	
			Packages and delivers proteins	
			Transports proteins and lipids (fats)
