# [BÀI 2] READING PART 5

**Questions 21–26**

**For each question, choose the correct answer A, B, C or D.**

## A Useful New Invention

A group of students at Greenfield School has created a new invention to help people save energy. The idea came from a science project they did last year.

The students designed a small machine that uses sunlight to produce **(21)** _____ for the school. During the day, it collects energy from the sun and stores it in a battery.

The machine is not very large, so it can be **(22)** _____ easily from one place to another. The students hope that other schools will be able to use the same idea in the future.

Before starting the project, the students had to **(23)** _____ a lot of research. They looked at different inventions and talked to their science teacher about how they worked.

The project was not easy at first. Some students thought the machine was **(24)** _____ complicated to build, but they continued working on it and eventually solved the problems.

The school is now planning to **(25)** _____ the machine in the main hall so that visitors can see how it works. The students are very proud of their work and hope it will encourage other young people to become interested in science.

Their teacher says that good inventions do not always need to be expensive. Sometimes, a simple idea can **(26)** _____ a big difference.

| OPTIONS | | | | |
|---|---|---|---|---|
| **No.** | **A** | **B** | **C** | **D** |
| **21** | fuel | power | traffic | display |
| **22** | moved | arrived | reached | travelled |
| **23** | make | do | take | have |
| **24** | too | enough | very | such |
| **25** | display | invent | pump | attend |
| **26** | make | do | take | give |
