READING

Instructions: Read the paragraph. Then answer the questions.

Our town has many wonderful places to visit, each with unique features. The local market, located next to the park, is one of the most bustling areas in town. It is busier than the supermarket but much smaller. The park itself is a beautiful, picturesque spot with tall trees and walking paths, making it the most attractive outdoor space in the area. If you walk straight ahead from the park and turn right at the gas station, you'll find the modern mall. The mall is bigger and more crowded than the theater, which is on the left side of the city hall. The theater is old but still one of the most fantastic places to watch performances. To get to the church, go past the fire station and turn left; it's across from the police station. The church is older and quieter than any other building in town.

1. Write two adjectives used to describe the park: _____ and _____.
2. Which place is described as modern? _____.
3. How do you get to the church starting from the fire station? _____
_____.
4. How is the local market different from the supermarket? _____
_____.
5. What makes the theater a fantastic place to visit? _____
_____.
6. Which place is located across from the police station? _____.
7. Write one sentence comparing the park and the mall. Use the comparative form of the adjectives given in the paragraph. _____
_____.
8. What is the busiest area mentioned in the paragraph? _____.
