READING PASSAGE: BUILDING BACKGROUND

Before the renovation, the building was in bad condition. The lift was very old and wasn't safe. The windows were dirty and weren't clean. The pipes were rusty and weren't new. The stairs were damaged and weren't stable. The hallway was dark because it wasn't well-lit. The ceiling was cracked, the floor was wet, and the roof wasn't dry. The apartment doors were broken and weren't safe. The walls were cracked and weren't in good condition. Apart from that, the electrical wires weren't in good condition. They were dangerous.

BUILDING PARTS

lift • windows • pipes • stairs • hallway • ceiling • floor • roof • doors • walls • electrical wires
