Effects of the volcanic eruptions

After watching the video on the volcanic eruptions of Krakatoa in 1883 and the recent Anak Krakatoa 2026. Answer the following questions. You may search online for the answers.

1. How would you feel if you lived in an area where volcanic ash forced airports to close and degraded the air quality?

_____

_____

2. Why do you think atmospheric hazards like "vog" (volcanic smog) and fine ash pose such a serious problem for public health and modern infrastructure?

_____

_____

3. If you were part of a disaster response team today, what steps would you prioritize to protect citizens from ashfall and contaminated air?

_____

_____

4. How do you think modern technology helps us prepare for volcanic hazards today compared to how people responded back in 1883?

_____

_____
