No.	Column A	Column B
1	Endangered	A. The natural home of an animal
2	Habitat	B. A danger to an animal
3	Threat	C. A species that may disappear
4	Population	D. Animals living in nature
5	Wildlife	E. The number of animals living in an area

B. READING COMPREHENSION

Text 1 – The Sumatran Orangutan

The Sumatran orangutan is a great ape from Indonesia. It has long arms, strong hands, and reddish-brown hair. It lives mainly in the forests of Sumatra.

Orangutans eat fruits, leaves, flowers, and insects. They usually live alone and spend much of their time in trees. They build nests in trees for sleeping.

Today, Sumatran orangutans are endangered. Their forest homes are destroyed for farming and other human activities. Protecting forests can help orangutans survive.

6. Where does the Sumatran orangutan live?

- A. Java
- B. Sumatra
- C. Bali
- D. Papua

7. What does the orangutan eat?

- A. Fruits and leaves
- B. Fish and meat only
- C. Grass and flowers only
- D. Rice and vegetables

8. How do orangutans usually live?

- A. In large groups
- B. With many other animals
- C. Alone
- D. In pairs

9. Why are Sumatran orangutans endangered?

- A. They cannot find water.
- B. Their forest homes are destroyed.
- C. They cannot climb trees.
- D. They eat too much food.

10. What can help Sumatran orangutans?

- A. Cutting more trees
- B. Building more farms
- C. Protecting forests
- D. Hunting animals

Text 2 – The Firefly

The firefly is a small insect that can produce light at night. It usually lives in places with plants and clean water.

Fireflies are active at night. They use their light to communicate with other fireflies. They eat small insects, worms, and other tiny animals.

Today, fireflies face some problems. Pollution and pesticides can harm them and their habitat. Keeping the environment clean can help fireflies survive.

11. When are fireflies usually active?
 - A. In the morning
 - B. At noon
 - C. In the afternoon
 - D. At night
12. Where do fireflies usually live?
 - A. In deserts
 - B. In places with plants and clean water
 - C. In very dry places
 - D. In large cities
13. Why do fireflies use their light?
 - A. To find water
 - B. To communicate
 - C. To protect their eggs
 - D. To find trees
14. What can harm fireflies?
 - A. Clean water
 - B. Trees
 - C. Pollution and pesticides
 - D. Fresh air
15. What can people do to help fireflies?
 - A. Keep the environment clean.
 - B. Use more pesticides.
 - C. Destroy their habitat.
 - D. Pollute the water.
