UNIT 1

Digital Literaciês & My Identity

- ✓ Digital literacy
- ✓ My idol (high value, scholarship)
- ✓ My dream campus
- ✓ Stating, asking and giving opinion
- ✓ Agreeing and disagreeing
- ✓ Simple present & present continuous
- ✓ Subject pronoun, object pronoun
- ✓ Possessive adjective
- ✓ Adverbs of frequency

UNIT 2

Love Our Environment

- ✓ Adjective order (OSASCOMP)
- ✓ Subject and object questions
- ✓ Five senses
- ✓ Expressions & adjective phrases about domestic waste
- ✓ Noun + that, Noun + where
- ✓ Descriptive text (a place with a lot of waste/pollution)
- ✓ Vocabulary

Unit 1 – Page 1 (Soal 1–8)

A. Read the text and answer the questions 1–5.

Rani's Digital Learning Journey

Rani is a Grade XI student who wants to prepare herself for university. Every evening, she spends about 90 minutes learning online. She watches educational videos, reads information about scholarships, and follows several university websites.

However, Rani does not believe everything she reads. Before sharing information, she checks the source, publication date, and information on another reliable website. She also keeps a weekly record of her study time.

Last week, Rani spent 540 minutes learning online. She used 40% of the time to study English, 30% to research scholarships, 20% to explore university programs, and the rest to improve her digital skills.

1 What is the main reason Rani checks information before sharing it?

- A. She wants to spend more time online.
- B. She wants to become a famous content creator.
- C. She wants to ensure that the information is reliable.
- D. She wants to avoid studying English.
- E. She wants to increase her social media followers.

5 Choose the sentence that correctly describes Rani's study habit.

- A. Rani checks she sources carefully.
- B. Rani checks her sources carefully.
- C. Rani checks hers sources carefully.
- D. Rani checks him sources carefully.
- E. Rani checks they sources carefully.

2 What can be inferred about Rani's digital literacy?

- A. She uses technology mainly for entertainment.
- B. She accepts online information without questioning it.
- C. She uses digital resources selectively and critically.
- D. She avoids using university websites.
- E. She prefers social media to educational websites.

6 Rani studied online for 540 minutes last week.

English = 40%, Scholarships = 30%, University programs = 20%, and the rest to improve her digital skills.

How many minutes did Rani spend improving her digital skills?

- A. 36 minutes
- B. 54 minutes
- C. 72 minutes
- D. 90 minutes
- E. 108 minutes

3 Which sentence correctly describes Rani's current activity while someone is observing her now?

- A. Rani checks scholarship websites every evening.
- B. Rani checked scholarship websites yesterday.
- C. Rani is checking a scholarship website now.
- D. Rani will check a scholarship website tomorrow.
- E. Rani has checked the website every week.

7 Which study plan would BEST reflect Rani's responsible digital-learning habit?

- A. She always shares information immediately.
- B. She never checks the source of information.
- C. She usually verifies information before sharing it.
- D. She rarely studies and spends most time scrolling.
- E. She sometimes uses unreliable websites without checking.

4 Read the sentence.

"Rani checks the information carefully before she shares it."

What does it refer to?

- A. Rani
- B. the website
- C. the information
- D. the scholarship
- E. the source

8 Rani wants to know the application deadline for a scholarship. Which question is the MOST appropriate?

- A. What did the scholarship deadline?
- B. When is the scholarship application deadline?
- C. Who is the scholarship deadline?
- D. Where did the scholarship deadline?
- E. Why is the scholarship deadline?

Unit 1 – Page 2 (Soal 9–15)

B. Read the text, table, and answer the questions 9–15.

My Dream Campus

Dimas dreams of studying computer science at a university that provides strong academic programs, modern laboratories, and opportunities for international collaboration. He does not choose a university simply because it is popular.

He compares tuition fees, scholarship opportunities, campus facilities, student organizations, and graduate programs before making his decision. He also reads reviews from current students but realizes that personal reviews can be subjective.

Dimas creates a comparison table to help him make a more informed decision.

Comparison of Two Campuses

Criteria	Campus A	Campus B
Tuition per semester	Rp8 million	Rp6 million
Scholarship availability	30%	20%
International programs	8	12
Computer laboratories	4	6
Student organizations	18	15

9 Why does Dimas compare several criteria before choosing a campus?

- To choose the most popular campus.
- To make a decision based on several relevant factors.
- To avoid scholarship opportunities.
- To follow his friends' choices.
- To choose the campus with the highest tuition.

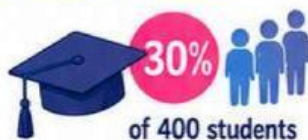

10 Based only on the table, which statement is supported by the data?

- Campus A has more laboratories than Campus B.
- Campus B has more international programs than Campus A.
- Campus A has lower tuition than Campus B.
- Both campuses offer the same scholarship availability.
- Campus B has more student organizations.

11 Campus A offers scholarships to 30% of eligible students. If there are 400 eligible students, approximately how many students could receive scholarships?

- 80
- 100
- 120
- 140
- 160

12 A student chooses an idol because the idol is hardworking, disciplined, academically successful, and actively supports education. Which quality is MOST relevant as a positive role model for the student's identity development?

- Popularity
- Physical appearance
- Responsible behavior and perseverance
- Number of social media followers
- Luxury lifestyle

13 Choose TWO statements that demonstrate responsible digital literacy.

- Checking information from several reliable sources
- Sharing viral information immediately
- Comparing evidence before forming an opinion
- Trusting information because it has many likes
- Using anonymous comments to attack others

14 Read the dialogue.

- A : "I think choosing a university only because it is famous is not a good strategy."
B : "_____. We should also consider its programs, costs, and opportunities."

Which response BEST completes the dialogue?

- I disagree completely.
- I agree with you.
- I don't understand the campus.
- Never mind.
- That's impossible.

15 Your friend wants to apply for an international scholarship but frequently shares unverified information online. Write 3–4 sentences giving advice. Your response should include:

- one opinion,
- one reason,
- one recommendation,
- one concluding statement.

Unit 2 – Page 1 (Soal 1–8)

A. Read the text and answer the questions 1–5.

A Polluted River

The river near a densely populated neighborhood has changed dramatically. Several years ago, residents could see clear water and small fish near the riverbank. Today, plastic bags, food containers, and household waste cover parts of the river.

The pollution affects both the environment and the community. The water smells unpleasant, drainage becomes blocked, and residents experience flooding more frequently during heavy rain.

A group of students proposes a three-step solution: reducing single-use plastic, separating household waste, and organizing a monthly river-cleaning activity.

1 What is the main problem described in the text?

- A. The neighborhood has too many schools.
- B. The river has become polluted by waste.
- C. Residents do not have enough transportation.
- D. Students cannot access the river.
- E. The river is too far from the neighborhood.

2 What is one consequence of waste blocking the drainage system?

- A. The river becomes wider.
- B. Flooding may occur more frequently.
- C. Residents use less water.
- D. Fish populations automatically increase.
- E. The neighborhood becomes cooler.

3 Which phrase has the CORRECT adjective order?

- A. a plastic large dirty bag
- B. a dirty large plastic bag
- C. a large dirty plastic bag
- D. a plastic dirty large bag
- E. a dirty plastic large bag

4 Read the sentence. "The students organized a river-cleaning campaign." Which question asks about the object of the sentence?

- A. Who organized the campaign?
- B. When did the students organize it?
- C. What did the students organize?
- D. Where did the students organize it?
- E. Why did the students organize it?

5 Which sentence uses the sense of smell to describe the polluted river?

- A. The river looks dark.
- B. The river sounds noisy.
- C. The river smells unpleasant.
- D. The river feels cold.
- E. The river tastes fresh.

6 Choose the sentence that correctly uses noun + that.

- A. Plastic is a material where can be recycled.
- B. Plastic is a material that can be recycled.
- C. Plastic is a material who can be recycled.
- D. Plastic is a material when can be recycled.
- E. Plastic is a material whose can be recycled.

7 Which sentence correctly uses noun + where?

- A. This is the river where many residents used to fish.
- B. This is the river who many residents used to fish.
- C. This is the river that many residents used to fish there.
- D. This is the river when many residents used to fish.
- E. This is the river whose many residents used to fish.

8 Which action would MOST directly address the problem described in the text?

- A. Building more shopping centers near the river.
- B. Increasing the use of single-use plastic.
- C. Separating waste and reducing plastic consumption.
- D. Closing the river permanently.
- E. Moving all residents away from the neighborhood.

Nama : _____ Kelas : _____ Nomor : _____

Unit 2 – Page 2 (Soal 9–15)

B. Read the text, look at the table, and answer the questions 9–15.

A Neighbourhood Full of Waste

In one neighborhood, waste collection is not managed effectively. Residents throw food scraps, plastic packaging, used bottles, and paper into the same containers. As a result, the area often looks dirty, produces an unpleasant smell, and attracts insects. A local survey found that 60 households participated in a waste-separation program. After three months, 45 households continued separating their waste consistently. The community leader believes that the program should be improved rather than abandoned. Students suggest placing separate bins for organic, recyclable, and residual waste, providing more information about waste management, and organizing regular clean-up activities.

9 What percentage of the participating households continued separating their waste?

- A. 50%
- B. 60%
- C. 65%
- D. 75%
- E. 80%

10 If the same proportion of households continues the program and there are 100 participating households next year, approximately how many households could be expected to separate waste consistently?

- A. 55
- B. 60
- C. 65
- D. 75
- E. 90

11 Why is improving the waste-separation program more reasonable than immediately abandoning it?

- A. The program has already achieved 100% participation.
- B. A majority of participating households continue the practice.
- C. Waste separation is impossible to evaluate.
- D. Residents no longer produce waste.
- E. The community does not need recycling.

12 Read the dialogue.

- A : "I think our school should reduce the use of disposable cups."
B : _____ We can encourage students to bring reusable bottles."

Which response BEST completes the dialogue?

- A. I completely disagree.
- B. I don't think so.
- C. I agree with you.
- D. I have no idea.
- E. That's impossible.

13 Choose TWO expressions that can appropriately describe domestic waste.

- A. unpleasant-smelling garbage
- B. clean reusable bottle
- C. rotten food waste
- D. beautiful green forest
- E. fresh drinking water

14 Complete the sentences.

- The recycling center is a place _____ residents can bring recyclable materials.
 - Plastic waste is a type of waste _____ takes hundreds of years to decompose.
- A. that – where
 - B. where – that
 - C. who – where
 - D. where – who
 - E. when – whose

15 HOTS – Numeracy & Problem Solving

Your school produces approximately 12 kg of plastic waste every day. If a waste-reduction program can reduce plastic waste by 25%, calculate:

- How many kilograms of plastic waste can be reduced each day?
- How many kilograms will remain each day?
- Write 2 practical actions the school could take to achieve the reduction.
