

Look at the penguin!
They are birds and have feathers, but they can't fly.
Their feathers are black and white.
They live in cold places.
They eat fish.They swim to catch fish.

When they walk on land, they waddle and look clumsy.
However, in the water, they are great swimmers. They like to swim.
Baby penguins are usually gray, brown, or fluffy white. They are called chicks.

Where do penguins live?

What colour are their feathers?

Can penguins fly?

How do they walk on land?

How do they look like when they walk?

What do penguins eat?

How do they catch the fish?

What are baby penguins called?

What colour are the chicks?
