III. Read and complete the sentence.

Have you ever heard of a professional sleeper? It's someone whose job it is to sleep all day. Professional sleepers are paid to sleep, but that's not all they do. They have to test beds to see how comfortable they are, and then they have to write reports about them. Scientists want to learn more about how we sleep, so they talk to professional sleepers and ask them questions.

Being a professional sleeper sounds like a great job, but it's not for everyone. Professional sleepers have to work indoors, and they sometimes have to spend time away from their friends and families. What do you think? Would you like to be a professional sleeper?

Professional sleepers have to _____ all day for their job.

The job of a professional sleeper includes testing _____.

Professional sleepers write about how _____ the beds are.

- Do professional sleepers get paid to sleep?
a. Yes b. No
- Do professional sleepers have to write reports?
a. Yes b. No
- Do professional sleepers talk to scientists?
a. Yes b. No
- Do professional sleepers have to work outdoors?
a. Yes b. No
- Do professional sleepers sleep at home every night?
a. Yes b. No

IV. JOB DESCRIPTION: Tennis coach

Tennis coaches work at schools, sports centers, or clubs. They teach children and adults how to play tennis. They need tennis shoes, rackets, sunglasses, and sun hats. They need to know how to play and teach tennis very well. They also need to be able to make tennis fun and safe. Being a tennis coach is a great job because tennis coaches get to work outdoors and play tennis all day!

Where do they work? _____

What do they do? _____

What clothes or equipment do they need to do their job?

What skills do they need? _____

Why is it a great job? _____
