

WEATHER DETECTIVE

LO: Find simple information about weather and choose safe, healthy actions.

1. New Words – Choose the meaning

1. atmosphere

☐ the air around Earth ☐ a type of food

2. scientist

☐ a person who studies things ☐ a football player

3. pressure

☐ a pushing force ☐ a colour

2. Read the Weather Report

Scientists study the atmosphere, the air around Earth. They watch wind, light and temperature. Weather can change during the day. Bright light can help some people feel awake. Very strong wind can make outdoor activities difficult. Scientists use weather information to help people plan their day.

3. Weather Detective – True or False?

1. The atmosphere is the air around Earth. ☐ True ☐ False
2. Scientists never study weather. ☐ True ☐ False
3. Bright light can help some people feel awake. ☐ True ☐ False
4. Strong wind can make outdoor activities hard. ☐ True ☐ False

4. Sort the Ideas

Write each word in the correct box: wind • bright light • scientist • temperature

WEATHER	PEOPLE
