Hi Steve!

How have your first couple of weeks of school been? For me, this term is ¹ going to be a challenge. I'm already feeling ² stressed! I'm taking literature, history, environmental science, geography, calculus and French – and there's so much homework that I can ³ keep up. Fortunately, though, I like all of my classes except calculus, which I'm doing poorly in. I wasn't ⁴ surprised when I failed the first test. ⁵, Jane's going to go over everything with me this weekend, and ⁶, I'll start understanding the subject.

With so much schoolwork, I'm not sure what to do about extra-curricular activities. It'll be ⁷ impossible for me to practise the guitar, be in the drama club and write for the school blog – and I'm definitely not giving up the guitar!

Can't wait to hear about what's going on with you.

Take care,

Amy
