A Fun School Day

Wow! My happy friend and I walk to the big school very early. Hey! Our kind teacher is in a clean classroom with her students. She always speaks slowly, and we listen carefully. Oh! The young students read interesting books on the wooden table. They usually write short sentences with some blue pencils. Great! We often work together, but he sometimes works alone. Yay! This new class makes us very happy. Oops! I never forget my homework. Hurray! You can do this well.
