YOUNG ENTREPRENEURS

Hi Emma,

I have just read an interesting article about four young people **(27)** _____ won prizes for their business ideas. I found their stories really inspiring!

Molly wanted to make her local oatcakes popular outside her region, but her tutor warned her that opening a bakery would require **(28)** _____ lot of investment. Fortunately, her tutor's advice helped her make the plan realistic.

Another entrepreneur, Ben, designed a modern boarding kennel for dogs. At first, his tutor did not think the idea would work **(29)** _____ Ben had not calculated the costs. However, after doing more research, they both realized it was an excellent plan.

Then there was Freya, who created audio tours for walkers. She collected fascinating local stories from people who **(30)** _____ lived in the area all their lives. She was amazed to win because her project was much smaller **(31)** _____ the other entries.

I think all four stories show that careful planning is just **(32)** _____ important as having a great idea.

Write soon,
Anna
