On the way, Uncle Brown showed them the field of wheat and vegetables where some tractors were running up and down, ploughing and breaking soil, distributing manure and planting potatoes.

After lunch, they all went for a walk. In the large yard of the farm, they saw some farm machines. Among them is the biggest machine which is called a combine harvester. They were told that this machine can cut and thresh corn at the same time.

In the afternoon, they went to the place where cattle such as horses, sheep and cows were raised. They were very excited to see how cows were milked by the workers there.
