## A DAY IN THE FUTURE

Next Saturday, Holly is going to visit a new Future City with her class. Their teacher wants the children to imagine what life might be like many years from now.

First, they will visit a huge stadium where people can watch sports. The stadium is next to a very tall skyscraper with hundreds of windows. Holly thinks the building looks amazing.

After that, the children will visit a space centre. They will see a large spaceship that can carry people into space. Outside the centre, there is a rocket which scientists use to send machines into space. Holly hopes that one day she can travel to another planet.

In the afternoon, the class will visit an underwater centre. They will look through large windows at the ocean and watch fish swimming under the water. Holly thinks it would be exciting to live in an underwater home.

Before going home, the children will visit a forest near the city. They will learn how to protect trees and animals. Holly sees an eagle flying above the trees and takes a photograph of it.

At the end of the day, Holly tells her teacher that she wants to help make the future a better place.
