PART 4

(6 MARKS)

Read the texts carefully. Then match them to the given statements using options A, B or C

Swimming:

Swimming is a popular Olympic sport. Athletes race in water using different strokes like freestyle, backstroke, and butterfly. Olympic swimmers take place in a large pool. Swimmers must be fast and strong. They train every day to improve their speed and technique. Some races are short, while others are long. Swimmers wear special suits and goggles to help them move quickly in the water.

Gymnastics:

Gymnastics is one of the most exciting Olympic sports. Athletes perform on equipment like the balance beam, rings, and floor. They do flips, jumps, and turns to show their strength and balance. Gymnasts practise for years to become flexible and confident. Judges give scores based on how well they perform. Gymnastics includes both men's and women's events.

Archery:

Archery is a sport where athletes use a bow to shoot arrows at a target. In the Olympics, the target is far away and has coloured rings. Athletes must focus and stay calm to hit the centre. Archers wear arm guards and use special bows. The sport needs good eyesight, strong arms, and steady hands. Archery is quiet but very competitive.
