grade1

NAME_____

DATE_____

1-fill in the missing number to make 10.

2-solve these equations using the number line.

3-solve the problem below .

Farmer Lina has 6 carrots for the rabbits.
She picks 5 more carrots. How many
carrots does she have now?

$$\boxed{} + \boxed{} = \boxed{}$$

There are 3 chicks in the yard, and 8 more
chicks hatch. How many chicks are
there now?

$$\boxed{} + \boxed{} = \boxed{}$$

4-Find the missing number to make a 10. Write it on the line.

$$7 + \underline{\quad} = 10$$

$$5 + \underline{\quad} = 10$$

$$4 + \text{---} = 10$$

5-put a dot in each square to show the addition sentence.

Diagram illustrating the addition of two rectangles. Each rectangle has a width of 5 and a height of 3. The equation is represented as:

$$5 \times 3 + 5 \times 3 =$$

6-solve these equations using the number line.

7-solve the problem below .

 I have 9 apples. My friend gives me 8 more.
Now I have ___ apples.

Ali has 6 kite. He gets 9 more. Now he has _____ kite.
