Read the passage and answer the following questions:

My name is Mike, and I am 10 years old. I go to a primary school in Delhi. I like school a lot. There are 30 students in my class. Most teachers are nice, and so is the school principal. Next to me sits my best friend, Tony.

Mohan is also a friend. In my backpack, I have my books, pens, crayons, pencils, and an eraser. I need the ruler for math. I don't like it because I'm not good at that. I do not understand the tasks properly.

It's always funny during the break. We eat and drink something. In the big break, we go to the yard and play football. This break is always too short.

I don't enjoy all of my school subjects equally. Sport is my favourite subject. Sport could be done on any given day. I am learning two foreign languages. German and French. German is a difficult language. I have to do a lot of exercises. I'm better in French. I make only a few mistakes. I also like biology and art. Biology is interesting. I like animals. I am also very interested in history. Soon we will have holidays.

Before the holidays, we have to write two school papers, one in German and one in English. I hope I will get good grades.
