My Favourite Restaurant

Laura

Last week, my family and I visited a new restaurant in my city. It opened just two weeks ago, so we were really excited to try the food there. We ate very nice food! We tried their spicy dishes and an amazing soup. The waiters were really kind. They recommended the best dishes for us to try and they were right. I need to go again. But I don't know when. I hope we can go and try more dishes very soon!

Samuel

Every Saturday night, I go with my friends to the same restaurant. It's an activity we've done for more than 3 years! We always meet at the park first and then we go there to have some burgers and fries. I always share with my friend Tony because we like the same type of burger. It's been two weeks since we have been there because now all my friends are on holiday, but we're going to meet tomorrow. I can't wait to hear from them!

Olga

If there's something that I love in this world, it's sushi! There's a sushi restaurant near my house and I always go there when I meet my friends for lunch or dinner. The first time I went there, I wasn't sure about the food. I've never tried sushi before, so I didn't know what to eat. But now, I can't live without it! There are so many different types. Every time I go with my friends, I try new dishes. Maybe we'll meet this week. I am going to try their new dish of sweet sushi. It has some fruit in it and sesame seeds. Oh, it also has some chocolate syrup on top. It must be delicious!
