Letter-Sound Relationships

Instructions: Read the sentences below. Identify the words and letters that demonstrate each letter-sound relationship, then write your answer on the lines provided.

1. Find one letter representing two different consonant sounds:

"The cat was sleeping next to the city library."

2. Find two different letters representing the same consonant sound:

"The kitten played with a cute little puppy."

3. Find two letters that form a consonant blend:

"The frog jumped across the grass."

4. Find a silent letter at the beginning of a word:

"My brother knows how to write his name."

5. Find two letters that form a consonant digraph:

"The children saw a ship near the beach."

6. Find a silent letter at the end of a word:

"The little lamb likes to climb the hill."

7. Find two different vowel sounds represented by the same letter:

"The cat ate a piece of cake."

8. Find two letters that represent one consonant sound:

"The phone rang while we were watching an elephant."
