a. What are the 4 main parts of the respiratory system?

1. _____
2. _____
3. _____
4. _____

b. What do you breathe in and out? _____

c. What is the main job of the respiratory system? _____

5. Digestive System

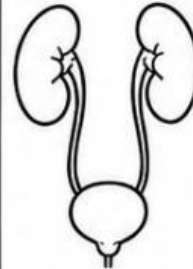

a. What are the 4 main parts of the digestive system?

1. _____
2. _____
3. _____
4. _____

b. What does the digestive system do? _____

c. Name one organ in the digestive system. _____

6. Excretory System

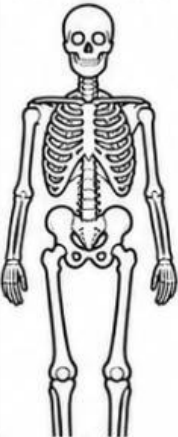

a. What are the 4 main parts of the excretory system?

1. _____
2. _____
3. _____
4. _____

b. What does the excretory system do? _____

c. Name one waste product it helps remove. _____

7. Skeletal System

a. What are the 4 main parts of the skeletal system?

1. _____
2. _____
3. _____
4. _____

b. What does the skeletal system do? _____

c. Name one bone in your body. _____

8. Muscular System

a. What are the 4 main parts of the muscular system?

1. _____
2. _____
3. _____
4. _____

b. What does the muscular system do? _____

c. Name one muscle in your body. _____

Quick Check

1. Which system helps you move?
☐ nervous ☐ muscular ☐ skeletal
2. Which system controls growth and helps with your metabolism?
☐ endocrine ☐ digestive ☐ respiratory
3. Which system removes waste from your body?
☐ excretory ☐ circulatory ☐ nervous
4. Which system helps you breathe?
☐ respiratory ☐ digestive ☐ skeletal
5. Which system brings oxygen to your blood?
☐ circulatory ☐ excretory ☐ endocrine
