

An Unforgettable School Trip

Last summer, our class decided to go on a trip to a beautiful island. We asked for advice from our geography teacher, Mr. Smith. He said that travelling by helicopter was too expensive, so we looked for other options.

First, we travelled by van to the harbour. The journey was a bit slow because of the heavy traffic, but it was fun. At the harbour, we saw a huge ferry. Some students thought that traveling by sea could be dangerous during a storm, but the weather was perfect. The water was calm, and the ferry ride was wonderful.

When we arrived at the island, we didn't take a tram to our hotel. Instead, we chose to go on foot so we could see all the beautiful streets. It was an amazing adventure, and we loved every minute of it!
