

Name: Class:

1. Share the objects equally among the groups, then fill in the missing numbers.

 $18 \div 6 = \square$	 $12 \div \square = 6$
 $\square \div 3 = 7$	 $32 \div 4 = \square$
 $28 \div \square = 7$	 $\square \div 2 = 3$

2. Use the pictures to work out the divisions.

$9 \div 3 = \square$	
$4 \div 2 = \square$	
$8 \div 4 = \square$	
$12 \div 4 = \square$	
$16 \div 4 = \square$	
$20 \div 4 = \square$	
$15 \div 3 = \square$	

3. Fill in the missing numbers.

 groups of apples each = + + + = × =	 groups of carrots each = + + = × =
 groups of tomatoes each = + = × =	 groups of marbles each = + + + + = × =
 groups of boats each = + + = × =	 groups of candies each = + = × =

4. Complete each fact family.

 × = × = ÷ = ÷ = 	 × = × = ÷ = ÷ =
 × = × = ÷ = ÷ = 	 × = × = ÷ = ÷ =

5. Share the food equally between the kids. Circle the correct equation and write the answer.

  $5 \times 2 =$ $12 \div 4 =$ $8 \div 4 =$ $8 - 4 =$ Each kid gets: _____ bananas	  $3 \times 3 =$ $6 \div 2 =$ $3 + 3 =$ $6 \times 10 =$ Each kid gets: _____ muffins
  $6 \div 2 =$ $6 \div 3 =$ $6 \div 4 =$ $6 \div 6 =$ Each kid gets: _____ pretzels	  $3 \times 4 =$ $12 \div 2 =$ $12 \div 4 =$ $12 - 4 =$ Each kid gets: _____ cherries

6. Fill in the empty boxes to make every equation correct.

					30	÷	3	=		
							×			
		12				÷		=	8	
		÷					=			÷
		2	×	9	=					
		=								=
36	÷			=			16	÷	8	=
					2	÷	1	=		
							×			
		10				÷		=	5	
		÷					=			÷
		2	×	3	=					
		=								=
20	÷			=			40	÷	5	=

7. Solve the word problems. Show your working and write the correct unit in each answer.

1. Each box of pencils holds 8 pencils. Lan buys 6 boxes. How many pencils does she have altogether?

Working: _____

Answer: _____

2. A teacher has 36 notebooks to share equally among 9 students. How many notebooks does each student get?

Working: _____

Answer: _____

3. A classroom has 7 rows of chairs with 9 chairs in each row. How many chairs are there altogether?

Working: _____

Answer: _____

4. 42 candies are shared equally into 6 bags. How many candies are in each bag?

Working: _____

Answer: _____

5. 56 oranges are packed into baskets of 8 oranges each. How many baskets are needed?

Working: _____

Answer: _____

6. Nam has 54 marbles. He puts 6 marbles in each box. How many boxes of marbles does he fill?

Working: _____

Answer: _____

7. A shop has 6 cartons of milk with 8 packs in each carton. It sells 15 packs. How many packs of milk are left?

Working: _____

Answer: _____

8. Class 3A has 32 students split equally into 4 groups. Each group then sits equally at 2 tables. How many students sit at each table?

Working: _____

Answer: _____
