

RELATIONSHIPS – UNIT 1

After remembering what we discussed in previous classes, read the following text:

On January 20, 2009, people throughout the United States came to see Barack Obama's Inauguration Ceremony. Around 4,000 people got caught in a tunnel and could not get to the ceremony.

Watch this video to see what happened:

Answer the following questions (use as much English as you can):

- How do you think the people in the tunnel felt that morning?
- How might these people's mood have changed when everyone started singing together?
- In what other situations you think singing this song could be helpful or appropriate?

Now watch this clip from GLEE TV series and focus on the situation the students are involved:

Write down what you observed from the friendships, social skills and change in character's behavior:

Listen to the song "Lean on me", written by Bill Withers and interpreted by the cast of GLEE.

Use the words below to complete the lyrics. Follow the instructions:

1. Click on the word – start with SOMETIMES in the upper left corner.
2. To move on, you can use any words right next to the word you clicked, in any direction.
3. Squares can only be used once.

LEAN ON ME (Glee Version)

Sometimes in our lives, we all have we all have

But if we are wise, we know that there's always

CHORUS

Lean on me when you're not / And I'll be your

I'll help you

For it won't be til I'm gonna need

 to lean on.

Please swallow your if I have things you need to

For no one can fill those of your

That you won't let show

You just brother, when you need a

We all need somebody to lean on

I just might have a problem that you'll understand
