What object is special to you?

James

My family have visited Ireland twice, and last year I found this small stone on a beach there; it's special because you can see an ancient sea snail preserved in it. It's a hard, round stone, and in the middle, you can see the marks of the sea snail. It's special to me because it reminds me of a really enjoyable holiday with my family.

Jenny

I've played the drums since I was seven years old, and these are my first set of drumsticks. They are light and comfortable to hold, and I used them when I first started to learn to play. I've got some bigger ones now. When I was ten, my parents bought me a drumkit, and now I practise every day. I keep it in the garage as it's very noisy!

Rose

My special object is my blanket; my grandma made it for me from clothes that I wore when I was little. My grandma took my old clothes and she cut small squares of material from them and joined them together to make this lovely patterned blanket. It's nice and soft, and I have it on my bed; I think I'm really lucky, it took a long time for Grandma to make this for me.

Sean

I have always been athletic, and I started running when I was eight years old. I competed for my school once; I came third and I got a medal. It's small and round medal, but not very heavy, and it's plain, without any inscription. I want to continue running in races, and I hope that I win more medals in the future.
