

Animal Habitats

Let's learn where animals live!

In this activity, you will learn about animal habitats and how habitats help animals live.

Meet the Habitat

A habitat is the place where an animal lives. Animals need food, water, air, and shelter. Different animals live in different habitats.

Important Words

Habitat	Animals that live there
Forest	monkeys and tigers
Ocean	fish and whales
Desert	camels
Pond	frogs and ducks
Polar region	polar bears

Read the Text

A fish lives in water. A monkey lives in the forest. A camel can live in the hot desert. Frogs can live near ponds. Polar bears live in very cold places. A habitat gives animals food, water, and shelter.

Fill in the Blanks

Complete each sentence using the words from the word bank.
