

PRACTICE 6

Read the text below and correct the underlined errors. For each question, write the correct word in the space provided.

The Malayan Tiger

The Malayan Tiger (*panthera tigris jacksoni*) was once (0) a centre of a small controversy. (1) On 2004, when it was discovered that the Malayan Tiger (2) is a distinct species from the Indian Tiger, it was argued that it should be (3) name *panthera tigris malayensis*. However, a compromise was (4) reaching – it would still be called *jacksoni* after Peter Jackson, (5) which was a tiger conservationist and researcher – (6) so given the common name of Malayan Tiger. (7) Their national animal is gravely endangered. In 2014, additional research (8) shown that the Malayan Tiger might have to be reconsidered critically endangered, as its population levels have fallen even more. While it is illegal to trade in tiger parts, meat and bone continue to be sold on the black market, usually to make traditional medicines. Poaching is the single largest threat to the Malayan Tiger.
