E Reading

Read the article about a man who tastes food differently and choose the correct answer for each question.

For people like Jack, 24, who are 'supertasters,' eating can be a challenge. That's because their tongues taste food in a different way.

'I can't stand coffee or broccoli. They're very unpleasant,' says Jack. 'Cheese tastes like it has too much fat in it, and desserts are just too sweet! I'm not sure if my parents thought I was being difficult or if I just wanted to eat my favorite foods all the time when I was a child. But I knew my problem with some foods bothered them. In fact, I found some foods extremely difficult to eat – they were just horrible.'

When it became a real challenge for Jack to eat the food they gave him, his parents took him to an expert in healthy diets. She explained that children taste food differently than adults, and that Jack would start to like certain foods more as he grew up. But by the time Jack was a teenager, he was completely avoiding a lot of healthy food, such as fruit, and only eating things with a mild taste, like potatoes.

'It wasn't really a problem until I was living away from home,' Jack admits. 'Cooking wasn't hard because I could have whatever I wanted, though it meant that no one was telling me to eat properly. I realized that I was always eating the same three or four dishes all the time. My friends thought it was funny that I didn't like chocolate or other sweet snacks. And it wasn't fun to go to restaurants with because I'd always want to go to the same place!'

'As I grew up, I started to worry about future illness because of my poor diet, but I didn't know what to do. Then I read an article about supertasters, and finally, it all made sense. I didn't eat food high in fat or sugar, but I was eating hardly any fruit or green vegetables. However, I knew the answer wouldn't involve forcing myself to eat things I hated.'

Jack did some research and found that there were plenty of foods he could eat that were just as good for him as green plants. 'I found other vegetables that were slightly sweeter, which had lots of benefits for the body. Someone suggested cutting green vegetables into tiny pieces and adding them to sauces, but I could still taste them, so that didn't work for me. I'll never like some foods, but at least there's more variety in my diet now, so it's healthier!'

- 1 When Jack was a young boy, his parents ...
 - A ☐ were unhappy about making him the food he enjoyed.
 - B ☐ were worried about Jack not eating certain foods.
 - C ☐ were angry at the way he behaved at mealtimes.
- 2 The diet expert that Jack saw ...
 - A ☐ was sure that Jack's eating habits would change.
 - B ☐ gave his parents suggestions about what they could cook.
 - C ☐ recommended that Jack chose the food he wanted to eat.
- 3 When Jack lived away from home, he ...
 - A ☐ was pleased not to be told what to eat.
 - B ☐ found it difficult to decide what to cook for himself.
 - C ☐ understood that he had unusual eating habits.
- 4 Jack read the article about supertasters because he ...
 - A ☐ wanted to know how to include green vegetables in meals.
 - B ☐ had become bothered that his health may be affected.
 - C ☐ hoped to find out about foods that were bad for him.
- 5 Since doing some research, Jack has ...
 - A ☐ found good ways of cooking some foods.
 - B ☐ accepted that his diet may never be healthy.
 - C ☐ added a wider variety of food to his diet.
- 6 A good title for this article would be ...
 - A ☐ The man who tastes things too much.
 - B ☐ How I learned to taste again.
 - C ☐ Making eating more fun.
