

Name:

School:

Class: **Grade 6**

Subject: **Science** Title: **Reaction of Acid and Carbonate**

Interactive Worksheet: Week 21/ Self-Learning Program

Exercise 1:

Label the following statements as True or False

1- Acid reacts with Base to produce salt and water.

.....

2- In action of acid on base, heat is absorbed.

.....

3- Base lightens up the color of indicators

.....

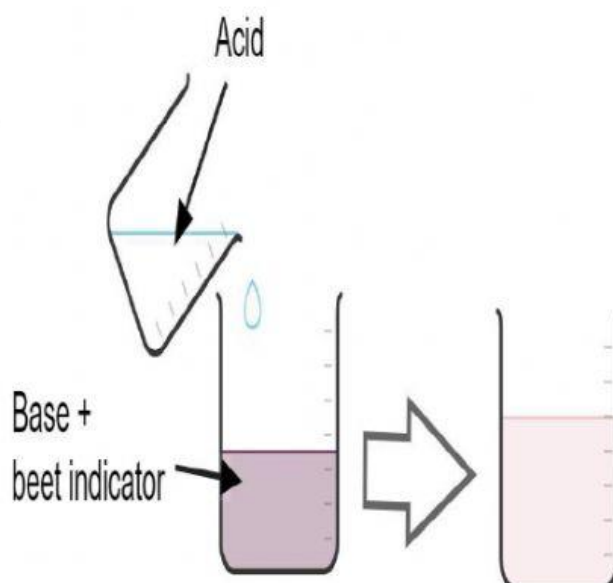

Exercise 2:

To a beaker containing base and few drops of beet solution (indicator), we added a quantity of acid. The color of the indicator changed as shown in the figure.

Choose the correct answer:

1- **Indicate the reactants in this reaction.**

- Acid and salt
- Salt and water
- Base and acid

Chemix.org

2- What is the evidence for occurrence of this process?

- Color change
- Gas release
- Formation of precipitate

3- Write the word equation of the reaction.

- Base + Acid $\rightarrow$ Water + Salt
- Salt + Water $\rightarrow$ Acid + Base
- Acid + Salt $\rightarrow$ Base + Water
