Match the words with the meaning of the words.

chords	pieces of music written for four string instruments (usually two violins, a viola and a cello)
deaf	groups of three or more musical notes played together at the same time
string quartets	very surprising and very good; extremely impressive
survive	the way in which the parts of something are arranged or organized
common grave	giving you a feeling of satisfaction because you have done something good or useful
child prodigy	unable to hear
although	a word used to introduce a fact that makes the other part of the sentence surprising (like "but")
choral music	to continue to live and exis, especially after a difficult situation
structure	music that is written to be sung by a group of singers (a choir)
piano concerto	a grave in which several people are buried together, usually without individual markers and names
choir	a group of people who sing together
the rest of	a child who is much more talented or intelligent than other children of the same age
amazing	a piece of music for a piano and an orchestra, where the piano plays the main part
rewarding	the remaining part of something; what is left after the other parts are gone
